2015 HIGH SCHOOL SCHOLARSHIP PROGRAM

The Learning Institute makes one renewable scholarship available to every high school in the U.S. for incoming first quarter students for graduating high school seniors who begin the Aviation or Energy Programs at MIAT, in the summer or fall of 2015.

GENERAL CRITERIA FOR HIGH SCHOOL SCHOLARSHIPS

ELIGIBILITY
Applicants must have graduated from a U. S. high school or have passed the equivalent exam prior to their scheduled start date at MIAT. The Institute requires that an official academic high school transcript be received prior to the start of classes or the scholarship will be rescinded. The final official transcript showing graduation must be submitted prior to the first day of class. This scholarship is restricted to first time first-term freshmen students and students who have not participated in the High School part-time program. Recipients must meet the Institution’s academic standards and all admissions entry requirements.

DEADLINES
All entries must be received by May 1, 2015. The Campus Director or his/her designee will notify all entrants of decisions. Offers not accepted by the recipients will be rescinded and may be awarded to the first runner-up.

JUDGING
Should any High School have multiple entries, a Counselor representing the high school will make determinations of the scholarship recipient based on a review of completed scholarship packets from their high school. Counselors will then notify the MIAT of their selection no later than May 10, 2015. In the event a counselor is unable to select a recipient an Independent Scholarship Committee composed of high school administrators, staff and/or teachers will review completed scholarship packets and notify the MIAT of their selections. There will be no MIAT staff or faculty involved in the High School Scholarship selection process. Selection criteria will include, but is not limited to, cumulative GPA and grades achieved in courses related to power technology such as physics, mathematics, science, electronics and other similar technology based subjects. Additionally, factors such as student’s ability to demonstrate interest, motivation, commitment, attendance and professionalism may be considered in the selection process. As part of the application process, candidates will be required to submit an essay, two letters of recommendation, their most recent high school transcripts (at the time of application) and their final transcripts upon completion of their senior year. Additionally, applicants must have completed the Application for Consideration for acceptance to MIAT. Each High School Counselor or the Independent Scholarship Committee will then review these materials and submit their selections and a runner up for each scholarship to the MIAT. All scholarship recipients submitted to the institution will be reviewed by the faculty and staff of the MIAT to ensure that they meet or exceed the Institution’s academic and admissions entry requirements. Upon confirmation of the recipient’s qualifications, an award certificate will be provided for each high school by the Learning Institute for presentation at their awards banquet.

ENTRY MATERIALS
The Learning Institute is not responsible for loss, damage or return of submitted materials.

RECIPIENT OBLIGATIONS
Scholarship recipients must start classes in the summer or fall of 2015 in order to receive their initial $500 award for the first quarter. Recipients must also adhere to the institutions expectation of professionalism and meet or exceed the academic and attendance requirements as detailed in the institution’s Catalog, except that the cumulative grade point average (CGPA) may not fall below 2.5 in the first academic year and not below 3.0 in the subsequent 2nd and/or 3rd academic year(s). Scholarships will be rescinded immediately following any quarter of unsatisfactory performance.
2015 HIGH SCHOOL SCHOLARSHIP PROGRAM

OTHER CONDITIONS

Scholarships given by the Learning Institute may be used only for full-time attendance at the institution. In the event that education is terminated either by the student or MIAT, the scholarship becomes null and void. The scholarship is not redeemable for cash and can only be applied toward tuition. The scholarship may not be used to finance optional programs sponsored by MIAT, such as non-matriculating course offerings.

ELIGIBILITY:

1. One Scholarship per High School for graduating high school seniors beginning their training at MIAT in the summer or fall 2015.

2. Restricted to full-time first quarter students of MIAT.

AMOUNTS GRANTED:

AVIATION PROGRAM SCHOLARSHIP AWARD
High school seniors interested in enrolling in the Aviation Program at MIAT may apply for a $1,500 scholarship, awarded at $500 for the first academic year and renewable for the second and third academic years provided the applicant meets or exceeds all of the institution’s professionalism, academic and attendance policies as outlined in the academic catalog.

ENERGY PROGRAM SCHOLARSHIP AWARD
High school seniors interested in enrolling in the Energy Program at MIAT may apply for a $1,000 scholarship, awarded at $500 for the first academic year and renewable for the second quarter provided the applicant meets or exceeds all of the institution’s professionalism, academic and attendance policies as outlined in the academic catalog.
2015 HIGH SCHOOL ACADEMIC SCHOLARSHIPS
