MIAT High School Scholarship Program

General Criteria for High School Scholarships

Eligibility:

Applicants must have graduated from a U.S High School or have passed the equivalent exam prior to their scheduled start date at MIAT. MIAT requires that an official academic high school transcript be received prior to the start of classes or the scholarship will be rescinded. The final official transcript showing graduation must be submitted prior to the first day of class. This scholarship is restricted to first time first-term freshman students, and students who have not participated in the High School part-time program. Recipients must meet the college’s academic standards and all admissions entry requirements. In order to apply for the MIAT Scholarship, applicants must have completed the Application for Consideration for acceptance to MIAT. Should any High School have multiple scholarship applicants, a counselor representing the high school will make the determination of the scholarship recipient based on review of the application. The MIAT Scholarship is awarded to one high school student per high school.

Procedures:

- Applicants apply for the MIAT scholarship by submitting the scholarship application packet to MIAT.
- MIAT will contact the applicants’ high school counselor for approval. (counselor information is listed on application)
- Counselor will decide to approve or deny the applicants application for the MIAT Scholarship.
- If approved, the counselor will provide a written approval of the scholarship recipient to MIAT.
- MIAT will create an award letter and an award certificate to present to the applicant.
- MIAT Admissions Administrative Manager will provide a copy of the award letter to the Student Finance department.
- The Student Finance department will apply the scholarship to the applicant’s student Finance Plan once they have become an active student at MIAT.
- If the applicant is awarded the Aviation program scholarship in the amount of $1500, the scholarship is awarded at $500.00 for the first academic year, and renewable for the second and third academic years provided the applicant meets or exceeds all of the college’s professionalism, academic and attendance policies as outlined in the academic catalog. This is in exception to – the cumulative grade point average may not fall below 2.5 in the first academic year and not below 3.0 in the subsequent 2nd and/or 3rd academic year. Scholarships will be rescinded immediately following any quarter of unsatisfactory performance.
- If the applicant is awarded the Energy program scholarship in the amount of $1000, the scholarship is awarded at $500.00 for the first academic year, and renewable for the second quarter provided the applicant meets or exceeds all of the college’s professionalism, academic and attendance policies as outlined in the academic catalog. This is in exception to – the cumulative grade point average may not fall below 2.5 in the first academic year and not below 3.0 in the subsequent 2nd and/or 3rd academic year. Scholarships will be rescinded immediately following any quarter of unsatisfactory performance.
